

BALMORAL

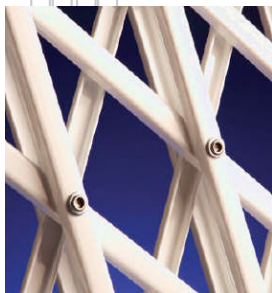

Expanding High Security Grille

SPECIFICATION: -

Sliding collapsible grille formed from galvanised steel channel vertical pickets and lattice bars, running on nylon wheels in a steel top and bottom track, with additional brackets and nylon components for added protection. The rivets are made from stainless steel and are pneumatically pressed for greater hold. Finished in a polyester powder coat to most standard RAL or BS 4800 colours. A multipoint locking system is designed with user's protection in mind, offering maximum security, including protection against saw attack.

OPERATION: -

Easy manual operation by sliding from side to side.

APPLICATION: -

Grilles can be supplied in single stack form or bi-parting double stack. Each grille is purpose-made to suit site dimensions and requirements and is suitable for all types of protection including office windows, shop windows, entrance doors, chemists, schools, hospitals etc...

BENEFITS: -

- Tested to **LPCB Level 1**.
- Effective prevention against crime.
- Maximum strength.
- Clear visibility and ventilation when closed.
- Smooth and quiet in operation.
- Stores neatly to one or both sides.

VARIABLE OPTIONS: -

- Single Stack: Curtains folded to one side.
- Double Stack: Curtains folded to both sides.
- Bottom track can be removable or hinge up, in order to allow for easy access.
- Fixed bottom track.
- Full cylinder lock: allows key access from both the front and back of the grille (ideal for doorways).
- Sizes range from 500mm to 6000mm wide and from 650mm to 3046mm high.
