

VIKING I Roller Shutter Door

SPECIFICATION:-

The shutter curtain is constructed from suitable interlocking galvanised steel laths and galvanised "T" section bottom rail, running in galvanised steel side channels, mounted on galvanised steel support angles which are bolted to the structure.

The curtain weight is counter balanced by helical wound springs fitted inside a suitable steel tube barrel assembly at high level, running on steel bearings. The barrel assembly is supported between mild steel endplates.

APPLICATION:-

Each door is purpose-made to suit dimensions and requirements and is suitable for all types of industrial use where insulation is not important.

OPERATION:-

OPTIONAL EXTRAS:-

- Galvanised Facia
- Canopy
- Rubber Bottom Seal
- Head Brush Seal
- Wicket Gate - Manual
- Guide Locks
- Shootbolts & E/Lock Shoot Bolts
- Espagnolette
- Electric Inter Lock Espagnolette

FINISH:-

- Platisol
- Galvanised
- Powder Coating
